

Faith Village

Faith Village Children's Home- Originally established in 1995 as a safe haven for boy soldiers, Faith Village now serves as a home for orphaned, abandoned, or endangered children. It houses 15-20 boys and girls on average, with new children being brought each year as needs arise. Teams have the opportunity to build relationships with these children through staying on property. Through our local church, teams also have the opportunity to share at services that minister to the needs of our children as well as local children from Buddhist backgrounds. Though donations and gifts are certainly appreciated, the love that you share with our kids is one of the biggest blessings you can give!
